ABOUT THE BRAND

HOUSE OF MARLEY IN 30 SECONDS

1) House of Marley's eco-conscious identity was created in collaboration with the Marley family to carry on Bob Marley's legacy of love for music and the planet

2) All House of Marley products are crafted from uniquely recycled, upcycled or biodegradable materials. HOM packaging is 100% Recyclable. (Down to the cable ties.)

3) In addition to creating great sounding audio products that are better for the planet, HOM is also committed to environmental preservation through donations made to One Tree Planted.

4) The purchase of any House of Marley product helps plant new trees all over the world, including in Vancouvers interior. HOM has donated over 280,000 trees thus far, with a goal of 1 million trees by 2025.

5) HOM just launched 2 brand new speakers: the GET TOGETHER MINI 2 (MSRP $229), and the GET TOGETHER 2 (MSRP $349). Both available at Best Buy

Best Sustainable Speakers: House of Marley Get Together Duo

This Get Together Duo from House of Marley proves that you can make great speakers without impacting the planet. They're made of bamboo, recycled cotton, and hemp that not only leave a light eco-footprint but create a unique, stylish look.

Designed to be moved, the Duo includes a powered left speaker and a wireless, portable right speaker with 20 hours of battery life. This means you can quickly take one speaker outside or into another room without stopping the music.

Sustainability and ease-of-use were priorities with the Get Together speakers, but audio quality has not been forgotten: built-in woofers and tweeters on each speaker create deep, loud sound worthy of any song or Marley jam. *OH*

GET TOGETHER 2 Mini
